- Requesting general reports from the Induction Tutors on the progress of an ECT and training progress of the trainee.

3.0 Statutory induction

The statutory induction of an ECT is the bridge between Initial Teacher Training (ITT) and a career in teaching. The school will support the ECT in demonstrating that their performance against the relevant standards is satisfactory and equip them with the tools to be a successful teacher.

The Teachers' Standards will be used to assess an ECT's performance at the end of each year across the two-year programme.

The school will consider the standards against what can reasonably be expected of an ECT.

All judgements will reflect the expectation that the ECT has effectively consolidated their ITT and demonstrated their ability to meet the relevant standards consistently over a sustained period.

- A qualified teacher will not be employed as a teacher by the school unless they have satisfactorily completed their induction period, or if they meet any of the exemptions listed in Annex A.

Before a first year ECT undertakes an induction, they must have QTS status.

Teachers who completed their ITT between 1 May 2000 and 30 April 2001 are also required to pass the numeracy skills test before completing an induction.

Short-term supply teaching of less than one term will not count towards an ECT's induction as the time frame is too short to enable them to demonstrate performance against relevant standards.

If a supply term is extended, the school will not backdate the induction, but will begin the induction upon extension.

ECT's serving induction on a part-time basis are required to serve the full-time equivalent of two full academic years.

4.0 Suitable posts

The Principal and governing body will determine the suitability of posts for induction, guided by the following considerations. The post will:

- Have an appropriate body to hold the ECT's/trainee's performance to the relevant standards and quality-assure the process.
- Provide the ECT/trainee with the tasks, experience and support needed.
- Ensure the appointment of an Induction Tutor with QTS.
- Provide the ECT/trainee with a reduced timetable to enable them to undertake learning activities (no more than 90 percent of the timetable of the school's existing teachers on the main pay range, in addition to the timetable reduction in respect of PPA time).
- Not make unreasonable demands upon the ECT/trainee.
- Not present, on a day-to-day basis, the ECT/trainee with unreasonably demanding discipline problems.
- Involve the ECT/trainee regularly teaching the same class(es).
- Involve planning, teaching and assessment processes similar to those in which other teachers working in similar posts are engaged.
- Not involve non-teaching responsibilities without the provision of appropriate preparation and support.
- Provide the ECT with an ECF-based induction programme;
- Provide the trainee with a suitably designed, evidence based and sequenced curriculum alongside the programme requirements to ensure they can meet the Teacher's Standards by the end of the course. Standards must be met before recommendation for the award of QTS for trainees.
- Provide the scope and coverage of the programme to the trainee and lead provider.

The governing body will be satisfied that the school has the capacity to support the ECT/trainee in the role and that the Principal is fulfilling their responsibilities.

Once an ECT in either their first or second year has been appointed to a suitable post, the Principal will notify the relevant bodies in advance of the ECT taking up the post.

Upon registration, the ECT will be provided with a named contact to which they may raise any concerns about the induction programme.

5.0 Monitoring, support and assessment

A suitable monitoring and support programme will be put in place for the ECT/trainee, personalised to meet their CPD needs.

ECTs/trainees will be provided with an Induction Tutor/training mentor who will provide day-to-day monitoring and support, and co-ordination of assessment. They will also be assigned with a mentor in their department area for additional guidance.

Opportunities will be created for ECTs/trainees to gain experience and expertise in self-evaluation.

The criteria used for formal assessments will be shared between the ECT, Induction Tutor, Mentor and Principal and agreed in advance.

Formative assessment (e.g. lesson observation, target setting, pupil progress) and summative assessment (termly induction reports) will be used when assessing ECTs/trainees.

Termly observations of ECT's/trainee's lessons will be conducted, alongside a follow-up discussion with their Induction Tutor/Mentor.

All ECTs/trainees will be provided with the opportunity to undertake regular observations of experienced teachers.

All teachers who have a part in the ECT's/trainee's development will be responsible for assessing the ECT/trainee, so to gain a reliable overall view.

Termly assessment reports will give details of:

- Areas of strength.
- Areas requiring development/securing improvement.
- Evidence used to inform judgement.
- Targets for coming term (i.e. 'smart' targets).
- Support to be provided by the school.

6.0 Completing the induction period

ECTs will have completed their induction period when they have served:

- The full-time equivalent of the standard school 2 years (usually six terms); or
- A reduced period as agreed with the Principal and the TRA, based on previous teaching experience; or
- An extended period as a result of absences occurring during the period; or
- An extension following a decision by the appropriate body or the appeals body.

The appropriate body will make the final decision as to whether or not an ECT's performance against the relevant standards has been satisfactory, taking into account the recommendations of the Principal.

The appropriate body will make a decision within 20 working days of receiving the Principal's recommendation. They will then send written notification within three working days of reaching the decision to the ECT and the Principal.

If the decision is taken to extend the period of induction, the ECT will be informed of their right to appeal against this decision and provided with the name and address of the TRA. Any appeal will be notified within 20 working days or the appeal will be deemed to have expired.

Failure to complete the induction period will mean an ECT is no longer eligible to be employed as a teacher in a maintained school.

Where an ECT fails induction and gives notice that they do not intend to exercise their right to appeal, or when the time limit for an appeal expires, the school will dismiss the ECT within 10 working days.

If the appeal is heard but not upheld, the school will dismiss the ECT within 10 days of receiving the outcome of the hearing.

The ECT's name will then be held on the list of persons who have failed to satisfactorily complete an induction period by the TRA.

7.0 Record Keeping

Records will be kept in accordance with the school's GDPR Compliant Records Management Policy.

Assessment forms will be signed by the Induction Tutor/Mentor and Principal and submitted to the appropriate body in a timely manner.

Assessment forms will be completed at the end of each formal assessment period, stating the date an ECT's employment began, how much of the period has been completed, and any changes in work patterns and absences.

The TRA keeps records of all submitted appeals and will be contacted as needed.

Assessment reports will be retained for six years, as recommended by the DfE.

ECTs will be advised by the school to retain their original copies of assessment reports.

8.0 Confidentiality

The induction process and assessments will not be shared with others not involved in the process and will be treated as confidential.

All ECTs will be made aware of who has been granted access to their assessments.

The governing board are allowed to request termly general reports on the progress of an ECT/trainee but cannot automatically have access to this information. The only exception to this is when an ECT has a concern about an assessment, which would require the governing board to access the assessment forms to review the situation.

9.0 Special Circumstances

If an ECT is absent for a total of 30 days or more in each of the 2 years induction, the induction period will be extended by the aggregate of total days absent, delaying the start of year 2, or extending the period into year 3.

ECTs who take statutory maternity, paternity, or any other paid leave on their induction period may decide whether their induction should be extended accordingly to meet this purpose. Any outstanding assessments will not be made until the ECT returns to work and has had the opportunity to decide whether to extend induction.

If an ECT chooses not to extend the induction period, their performance will still be assessed against the teachers' standards.

The appropriate body has the option to extend the period after induction has been completed where it would be unreasonable to expect the ECT to have demonstrated satisfactory performance.

These may include: illness, personal crisis, disability, a lack of support during induction etc.

If an ECT leaves the school before completing their extension, an interim assessment form will be completed by the Principal and the appropriate body notified.

In circumstances where an ECT may be unable to, or chooses not to, complete their extension period in the same school, the minimum period of employment will still be served as the ECT will be working in a new school.

In circumstances where records have been lost due to an error or a data loss which is through no fault of the concerned teacher, the appropriate body has the discretion to decide if the ECT can be exempt from induction.

The appropriate body will ensure that every avenue has been explored to recover the missing data or identify an audit trail before making such a decision.

In reaching its decision, the appropriate body will consider the strength of evidence that an error has occurred or that records are missing or lost.

The appropriate body will also account for any evidence that the teacher has demonstrated they have performed satisfactorily against the relevant standards on the basis of evidence from the teacher's previous performance management reviews, and where appropriate, the most recent performance management review statements.

For ECTs completing induction in more than one school simultaneously:

- The separate contracts are added together to calculate the number of days of the induction period; each contract must meet the minimum period criteria.
- One Principal acts as the lead and will fulfil duties and responsibilities as outlined in this policy.
- One appropriate body will also take the lead in making the decision and is also responsible for gathering evidence from other appropriate bodies who are involved in the process.

10.0 Unsatisfactory progress and appeal

Additional monitoring and support measures will be put in place when an ECT is not making satisfactory progress, such as holding meetings between the ECT and the Principal or relevant senior leader, organising refresher training and providing more guided supervision. The appropriate body and the Principal will be satisfied that:

- Areas of improvement have been correctly identified.
- Appropriate objectives have been set to guide the ECT to perform against the relevant standards.
- An effective support program is in place to help the ECT improve performance.

When there are still concerns about the ECT's progress following intervention, the Principal/Induction Tutor will explain to the ECT the consequences of failure to complete the induction period satisfactorily, and also discuss the following with them:

- The identified weaknesses
- The agreed objectives set in order to have them satisfactorily complete the induction to the required standards
- Details of additional support put in place
- Evidence used to inform the judgement
- Details of the improvement plan for the next assessment period

If there are serious capability issues, capability procedures may be instigated before the end of the induction, which may lead to dismissal. This does not prevent them from completing their induction at another school.

If the ECT has had their induction extended or has failed it, the appropriate body will inform the ECT of their right to appeal and the time limit for doing so.

11. Monitoring and review

The Directors are responsible for reviewing this policy annually and the local governing body for ensuring the policy is implemented.

The effectiveness of this policy will be monitored and evaluated by all members of staff. Any concerns will be reported to the Principal immediately.

Any changes to this policy will be communicated to all members of staff.
